**Subject :** FRONT END DEVELOPER

Dear Sir,

I am Mariammal Jesuraj, an enthusiastic and creative web developer . I am looking forward to enhance my knowledge using Pepper Programming.

Over the past 6.5 years I was worked as Senior System Engineer in Infosys. I had taken almost 8 years to come back and learn new technology as front end developer.

You can refer the website I had developed using wordpress

<https://mariajesuraj.wordpress.com/blog/>

I am very much interested to learn in depth about front end developing course. Thanks for your time to read this cover letter

Best Regards,  
Mariammal Jesuraj
