Mr. SENTHAZHAI RAVI

10316 stockholm,

Sweden

Subject: Front End Web Developer Opening

Dear Mr.Senthazhal Ravi,

I have extensive knowledge of HTML, JavaScript, SQL, and C#. Combined with my communication and problem-solving skills, I think I would be an excellent candidate for the Web Developer role at Pepper Programming .

In my current role as a Web Developer at Valeo India Private Limited , I design, code, and implement websites for a variety of clients. In my latest project, I redesigned a website for a privacy software company, which helped increase their sales by 25% this quarter. Through working collaboratively with marketing, design, and product teams, I have developed strong communication and teamwork skills. I can bring my technical skills and passion for collaboration to the Pepper Programming Company team.

I have always been passionate about web development, which led me to pursue a Master's in Computer Science degree. I am constantly seeking out new technologies and staying up-to-date on trends in the industry.

Thank you for taking the time to review my qualifications. I look forward to sharing more about my skills and experiences. Feel free to contact me at +91 7305857341 or asdharshini@gmail.com.

Best Regards,

Indira Priyadharshini.V
