Subject: Front End Web Developer opening

Dear Mr. Ravi,

Hi!! I'm Divya Ramamoorthy.

Another human-being who celebrates the beauty of the existing as well as bringing new ideas to life – both meaningful and frivolous.

In love with creating visual content and experimenting in any possible direction while in the creative process – regardless of the technique. However, I'm in love with putting things in motion.

I can easily create a new website for you and your company that is in line with your brand guide and optimized for SEO. And, I can start right away. I am highly proficient with *WordPress Blog*

1. <https://divyarblog8.wordpress.com/2023/07/04/my-first-article-on-world-wide-web-evolution-and-fundamentals/>
2. <https://divyarblog8.wordpress.com/2023/07/04/history-of-computer-operating-systems-and-its-types/>

On my last project, I was even able to grow my client's SEO traffic by 30% and would love to do the same for you. I am attaching a few Articles using Wordpress pieces to this proposal. You can view additional work samples on my Upwork profile at link to your profile.

I am very interested in discussing your Web Developer role in more detail. I am available for an interview at your earliest convenience. Thank you for your time and consideration.

Sincerely

Divya Ramamoorthy
